

Cypress Pine Over 60 & Still Looking Good

Taking care of your timber

Over 60 & still looking good after a facial with WaterKote® 2K Matt

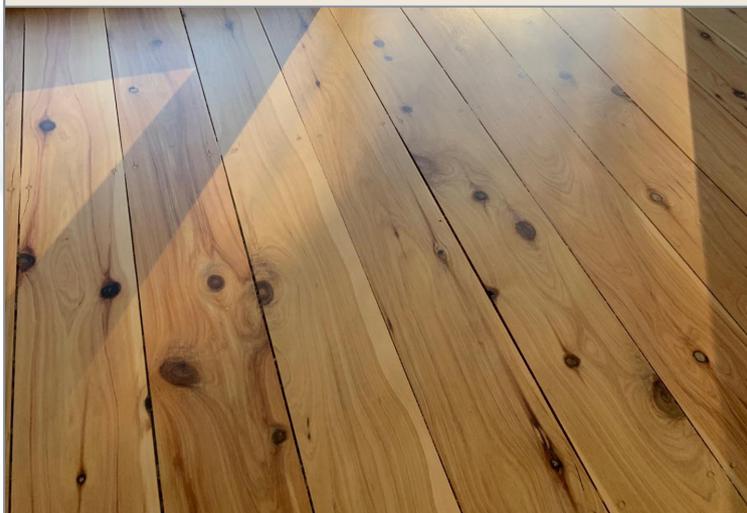

The Cypress Pine timber floor in this house was old and weathered, after 60+ years of service it was in need of some attention.

Restoring this Cypress Pine Floor was not only a sustainable flooring option it was also a cost effective solution with minimum disruption compared to replacing it.

Once prepared the timber was sealed with **WaterKote® Sealer** a primer and sealing coat which ensures that subsequent coats remain on the surface therefore maximising the wear layer. The seal coat was followed with 2 coats of **WaterKote® Matt** creating a very elegant finish highlighting the beautiful and natural features of the timber.

Sustainable, Cost Effective, Elegant & Naturally Beautiful Floor

WaterKote® SEALER	1 component primer/first (sealing) coat
	Extended open time
	Excellent flow and levelling
	Reduces the risk of edge bonding and tannin bleed
	Retains the natural colour of timber
	Reduced sheen finish prevents 'misses' in the next coat
	Subsequent coats remain on the surface maximising the wear layer
WaterKote® 2K MATT	A NEW generation 2 component water borne polyurethane
	Extended open time
	Exceptional flow and levelling.
	Can be walked on after 24 hours
	Full Cure 5 - 7 days after application
