HUNTERS HILL**

MONOTHANE 45 GLOSS
MOISTURE CURE POLYURETHANE CORK & TIMBER FINISH

Joeys choose Monothane 45 Gloss

USE QUALITY, USE URETHANE COATINGS

St Joseph's College (Joeys) in Hunters Hill, NSW, has a reputation as one of Australia's leading independent Catholic schools. Founded by the Marist Brothers in 1881 St Joseph's College has been educating boys for over 138 years.

Recently their mixed Australian hardwood floor in the hall needed some attention to make this beautiful floor shine again. Joeys choose Monothane 45 Gloss to do the job and were very pleased with the result.

The contractor had an area of 200m² to coat. Once the floor was prepared it was coated with Timberseal followed by 2 coats of Monothane 45 Gloss. I'm sure you will agree that the floor is certainly shining again.

***Make the floor in your school hall shine!
Choose Monothane 45 Gloss***

TIMBERSEAL

Is perfect as a first coat for, cork tiles, particle board, pine species (Baltic, Cypress & Radiata) as well as all species of Hardwoods.

TIMBERSEAL is highly flexible and virtually eliminate edge bonding when it is heavily applied and worked into the seams, thereby preventing entry of the subsequent coat of MONOTHANE.

MONOTHANE 45 GLOSS

Is a transparent, single pack, moisture cure polyurethane that provides a hard wearing Gloss finish while maintaining the natural character of timber.

MONOTHANE 45 GLOSS is suitable for coating all timber species, cork, particle board and concrete.
